Airly 5 Dual Bond Underlay is made from 90% post industrial recycled foam. The foam is recycled from the manufacture of mattresses, car seats, chairs and lounge suites. The foam is sorted, heat treated and re-bonded into quality carpet underlay, thus minimising land fill and waste.

*Airly guarantees the performance of the foam underlay for the life of the carpet.*

*All technical information contained herein is based on tests we believe to be reliable, the accuracy thereof is not guaranteed. Condition of sale contains a limited warranty against manufacturing defects.*
